SUMMARY

Motivated computer science student with strong problem-solving skills and a passion for learning emerging technologies.

EDUCATION

Pursuing bachelor's Degree in Computer Science and Engineering *CGPA 9.14*

Vivekananda College of Engineering & Technology, Puttur

Pre-university College *Vivekananda Pre-university College* *Percentage 97.8*

SSLC *Vivekananda English medium school, Puttur* *Percentage 95*

INTERNSHIP

MongoDB internship — Qspiders *Oct 2023 - Nov 2023*

- Developed skills in **NoSQL databases, focusing on MongoDB**. Learned to handle large datasets efficiently and apply NoSQL to real-world business needs.

Web development — Pace wisdom solutions Pvt ltd. *Nov 2023 - Dec 2023*

- Worked on mutiple web based projects and developed skills on **HTML, CSS, JavaScript, Data retrieval using public API**.

PROJECTS

Library management system — HTML, CSS, JavaScript, php, MySQL

- Developed an interactive web-based system to manage book records, borrowing, and user details efficiently.

Human health detection using tongue— Python, HTML, CSS

- Developed a system that examines tongue images to detect potential health indicators, enabling an efficient preliminary health assessment based on visual patterns.

An intention analyzer based on text conversation — Python

- Currently working on a project to analyze user intentions from text conversations, aiming to enhance communication understanding.

SKILLS

Technologies: C, C++ basics, HTML, CSS, JavaScript

Strengths: Time management, Leadership, Team collaboration, Communication

Developer's Tools: VS Code, GitHub

CERTIFICATIONS

- Web Development course [Internshala (07/2023)]
- Data Structures using C and C++ [Udemy (11/2024)]

EXTRA-CURRICULAR

- Participated in **Primed**, a placement hackathon conducted by IEEE
- Active Member of **Institute of Electronics and Electrical Engineering (IEEE)**
- Participated in **IEEEEXTREME18.0** 24 hours hackathon (25 - 26 October 2024)
- Attended the workshop on **RPA(Robotic process automation)**
